Vote **NO** on Prop 106... It's a Matter of Life and Death!

The deceptively titled “Colorado End-of-Life Options Act” poses **extreme danger to you and your loved ones.**

- **Tragic consequences of assisted suicide laws**

Under a nearly identical law, the physicians for cancer patients Randy Stroup and Barbara Wagner recommended treatment, but Oregon's Health Plan refused to pay for that treatment and instead offered to pay for their suicides under the so-called “Death with Dignity Act.”

- **People with terminal diagnoses often outlive a doctor's prediction and some diagnoses are just plain wrong.**

- **People may be made to feel they are a “burden,” and be coerced into suicide.**

- **Depression leads some to seek suicide, but depression is treatable. Nothing in this act requires screening for mental health.**

- **Who benefits from assisted suicide? Follow the money:**

- *Insurance companies and state health plans can save money by not treating patients.*
- *Surviving relatives, who may inherit more money sooner, can be involved in the decision making for their relative's suicide.*

Doctors should heal, not kill.
