S. 2593

To protect, consistent with Roe v. Wade, a woman's freedom to choose to bear a child or terminate a pregnancy, and for other purposes.

IN THE SENATE OF THE UNITED STATES

APRIL 6, 2006

Mrs. Boxer (for herself, Mrs. Feinstein, Mrs. Murray, Ms. Mikulski, Mr. Lautenberg, Ms. Stabenow, and Ms. Cantwell) introduced the following bill; which was read twice and referred to the Committee on the Judiciary

A BILL

To protect, consistent with Roe v. Wade, a woman's freedom to choose to bear a child or terminate a pregnancy, and for other purposes.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "Freedom of Choice
- 5 Act".
- 6 SEC. 2. FINDINGS.
- 7 Congress finds the following:
- 8 (1) The United States was founded on core
- 9 principles, such as liberty, personal privacy, and

- equality, which ensure that individuals are free to make their most intimate decisions without governmental interference and discrimination.
 - (2) One of the most private and difficult decisions an individual makes is whether to begin, prevent, continue, or terminate a pregnancy. Those reproductive health decisions are best made by women, in consultation with their loved ones and health care providers.
 - (3) In 1965, in Griswold v. Connecticut (381 U.S. 479), and in 1973, in Roe v. Wade (410 U.S. 113) and Doe v. Bolton (410 U.S. 179), the Supreme Court recognized that the right to privacy protected by the Constitution encompasses the right of every woman to weigh the personal, moral, and religious considerations involved in deciding whether to begin, prevent, continue, or terminate a pregnancy.
 - (4) The Roe v. Wade decision carefully balances the rights of women to make important reproductive decisions with the State's interest in potential life. Under Roe v. Wade and Doe v. Bolton, the right to privacy protects a woman's decision to choose to terminate her pregnancy prior to fetal viability, with the State permitted to ban abortion after fetal via-

- bility except when necessary to protect a woman'slife or health.
 - (5) These decisions have protected the health and lives of women in the United States. Prior to the Roe v. Wade decision in 1973, an estimated 1,200,000 women each year were forced to resort to illegal abortions, despite the risk of unsanitary conditions, incompetent treatment, infection, hemorrhage, disfiguration, and death. Before Roe, it is estimated that thousands of women died annually in the United States as a result of illegal abortions.
 - (6) In countries in which abortion remains illegal, the risk of maternal mortality is high. According to the World Health Organization, of the approximately 600,000 pregnancy-related deaths occurring annually around the world, 80,000 are associated with unsafe abortions.
 - (7) The Roe v. Wade decision also expanded the opportunities for women to participate equally in society. In 1992, in Planned Parenthood v. Casey (505 U.S. 833), the Supreme Court observed that, "[t]he ability of women to participate equally in the economic and social life of the Nation has been facilitated by their ability to control their reproductive lives.".

- (8) Even though the Roe v. Wade decision has stood for more than 30 years, there are increasing threats to reproductive health and freedom emerging from all branches and levels of government. In 2006, South Dakota became the first State in more than 15 years to enact a ban on abortion in nearly all cir-cumstances. Supporters of this ban have admitted it is an attempt to directly challenge Roe in the courts. Other States are considering similar bans.
 - (9) Legal and practical barriers to the full range of reproductive services endanger women's health and lives. Incremental restrictions on the right to choose imposed by Congress and State legislatures have made access to abortion care extremely difficult, if not impossible, for many women across the country. Currently, 87 percent of the counties in the United States have no abortion provider.
 - (10) While abortion should remain safe and legal, women should also have more meaningful access to family planning services that prevent unintended pregnancies, thereby reducing the need for abortion.
- (11) To guarantee the protections of Roe v.
 Wade, Federal legislation is necessary.

- 1 (12) Although Congress may not create con2 stitutional rights without amending the Constitution,
 3 Congress may, where authorized by its enumerated
 4 powers and not prohibited by the Constitution, enact
 5 legislation to create and secure statutory rights in
 6 areas of legitimate national concern.
 - (13) Congress has the affirmative power under section 8 of article I of the Constitution and section 5 of the 14th amendment to the Constitution to enact legislation to facilitate interstate commerce and to prevent State interference with interstate commerce, liberty, or equal protection of the laws.
 - (14) Federal protection of a woman's right to choose to prevent or terminate a pregnancy falls within this affirmative power of Congress, in part, because—
 - (A) many women cross State lines to obtain abortions and many more would be forced to do so absent a constitutional right or Federal protection;
 - (B) reproductive health clinics are commercial actors that regularly purchase medicine, medical equipment, and other necessary supplies from out-of-State suppliers; and

1 (C) reproductive health clinics employ doc-2 tors, nurses, and other personnel who travel 3 across State lines in order to provide reproduc-4 tive health services to patients. SEC. 3.
