

RESTORE RESPECT FOR LIFE IN AMERICA

Whereas the 1973 *Roe versus Wade* and *Doe versus Bolton* Supreme Court decisions allowed unborn children to be killed by abortion, for any reason, essentially throughout pregnancy.

And, whereas these decisions have resulted in the deaths of over 63,400,000 unborn children.

And, whereas medical and scientific advances since 1973 have resulted in greater knowledge that the unborn child is a living human being whose heartbeat begins at approximately 5 weeks of pregnancy (or 3 weeks after fertilization) and whose brainwaves can be recorded at approximately 8 weeks of pregnancy (or 6 weeks after fertilization).

And, whereas the United States Supreme Court is currently considering legislation duly passed by states seeking to protect the lives of unborn children.

Therefore, be it resolved that **we the undersigned urge the US Supreme Court to uphold legislation protecting the lives of unborn children and again restore respect for life in America.**
