Dear Mr. Andrusko:

I have reviewed the article entitled "Dilatation and Extraction for Late Second Trimester Abortion" by Martin Haskell, M.D. (presented at the National Abortion Federation Risk Management Seminar, September 13, 1992). The illustration adapted from drawings appearing in the February 1993 issue of "Life Advocate" and enclosed in your letter of April 19, 1993, is an accurate representation of the procedure described in the article by Dr. Haskell.

Sincerely yours,

Watson A Bowes Jr., M.D.  
Professor

*[Dr. Watson Bowes, a leading authority on maternal and fetal medicine is a professor of both obstetrics/gynecology and pediatrics. He is co-editor of Obstetrical and Gynecological Survey, and has served on the Congressional Biomedical Ethics Advisory Committee.]*
