## A PETITION TO MY GOVERNOR & STATE LEGISLATORS

Gov. Cuomo and the NY State Legislature have promoted and applauded legislation in the Empire State that will guarantee unrestricted abortion for any reason up until the moment of the birth. Shame on them. Under the so-called "Reproductive Health Act," they have put the lives of New York women in jeopardy by allowing non-physicians to perform abortions. They have opened the door to unrestricted abortions throughout pregnancy. And they have allowed infanticide by removing protections for babies born alive during an abortion. They have even removed penalties for illegal abortion. There is now no more dangerous place for unborn children than New York state. Please do not let this happen in our state.

We the undersigned demand that you reject New York's deadly path and instead encourage laws to protect children and their mothers from the tragedy of abortion and infanticide. Our children and mothers deserve much, much better. They deserve the warmth of life, not the cold embrace of death.
